

St. Joseph Cemetery offers two new concepts in Christian burial...

Garden crypts and lawn crypts. These practical alternatives to in-ground interment are architecturally combined in terraced gardens that enhance the natural hillside beauty of New St. Joseph Cemetery, offering Cincinnati the most contemporary choices while maintaining its cherished traditions.

Garden Crypts

For those who prefer the peace of mind and dignity of aboveground burial. Entombment in individually vented and sealed mausoleum crypts provides the ultimate burial protection. New St. Joseph Cemetery's Garden Mausoleums are constructed of steel reinforced, poured-in-place concrete and are permanently protected by highly polished granite, nature's most durable finishing material. Crypts are memorialized with custom-cast bronze plaques.

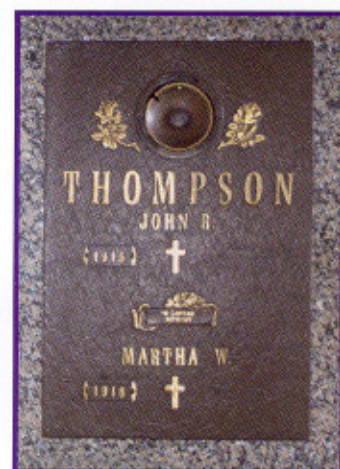

Lawn Crypts

Are the newest concept in interment. They provide the dignity and security of a mausoleum crypt while maintaining the tradition and economy of a ground burial. Lawn crypts, now available at New St. Joseph's, combine the practicality of allowing two burials in the space that was previously required for one, while sustaining a serene, park like setting. Two-tiered, pre-cast concrete crypts are placed in excavations with drainage systems engineered to prevent ground moisture accumulation. The crypts are then covered with top soil and lush lawn and marked with handsome, custom-cast bronze memorials.

Our Lawncrypts are located in beautifully landscaped terraced gardens. The complete package consists of the space for two, concrete vault, interment fees, bronze marker, and vase.

Select from the four marker designs shown...

Pre-Planning is comforting

Planning well in advance of the need may be one of the most comforting decisions you'll ever make. You'll spare your loved ones from making decisions at a time wrought with emotions. Pre-planning well in advance of the need assures you a wider choice of locations at today's reasonable prices.
